Full-Stack web-developer seeking to be part of a team that challenges me and improves my work that I do as a developer, as well as creates a lasting impression on the user. Started programming at age 12 and was self taught until November 2019. Interested in making responsive pages with a rich user experience using Javascript, React, and Node.js. Currently working towards a completed certificate from the University of Washington's Full-Stack Web Development Bootcamp. Looking forward to bringing positive energy and industriousness to the workplace.

TECHNICAL SKILLS

Node.js, Express, JavaScript, jQuery, React.js, React Native, Git, Github, MongoDB, MySQL, HTML, CSS, Bootstrap, Media Queries, APIs, JSON, REST, AJAX, Git Bash.

APPLICATIONS BUILT
